- “WHAT” – to narrow down your search for a specific supplier’s rates...
  - You can choose a specific **Service** = B&B or Resort; or a service **Class** = 5 Star or Camping; or both.
  - If you search rates by entering the **Supplier** name as well, be sure to use correct spelling.
  - If you are unsure of the supplier’s name, you can type in a **Key Word** to aid in your search.
  - If you would like rates for all suppliers in a specific area, leave the Supplier field empty.
- “WHERE” – allows you to browse through all the suppliers’ rates we have loaded for a specific destination.
  - If you’ve entered a Supplier name, be sure to choose a corresponding option under the **Country** dropdown list.
  - Narrow down your search by choosing a specific **Destination** from the dropdown as well.
  - Next, you can select the dates your clients would like to travel, or an extended date range for more rates.

**Once you've chosen the supplier or destination for which you require rates, you have 3 options:**

**OPTION 1:**

Once you've entered the supplier and/or destination for which the rates are required, click the "Tariff" button to access the applicable rates.

**OPTION 2:**

Download a printable MS Excel spreadsheet of the required rates straight to your computer by clicking on "Export/Print".

**OPTION 3:**

By clicking the "Search" button, you'll be taken to a list of rates with tick-boxes next to them. By unticking the boxes next to unwanted rates, you can refine your search to specific services or room types.

Once you have selected the rates you require, simply click on "Tariff" again to view the chosen rates, or on "Export/Print" to download the printable MS Excel spreadsheet to your computer.
